"Colorado School of Mines is committed to the health and well-being of all of its students. Good health is essential to academic success which is why we provide health care coverage to all enrolled degree-seeking domestic students, and all international students, regardless of degree status."

Mines requires all students to have adequate health insurance as a condition of enrollment. No distinction is made between part-time versus full-time status. Degree-seeking U.S. citizens and permanent resident students who demonstrate coverage that meets Mines' requirements may waive the health insurance provided by Mines using the online enrollment/waiver system. Information on coverage requirements can be found on the [Measure Up](#) page.
